

Do you suffer from gout?

You may qualify for a clinical research study.

The EXPLORE study will observe the safety and effectiveness of using the medication lesinurad in combination with a xanthine oxidase inhibitor (XOI), compared to using an XOI alone, to lower uric acid levels in the blood of adult patients with gout and kidney disease.

You may be eligible to participate in this study, if:

- You have been diagnosed with gout
- You have problems with your kidney function
- You are taking either allopurinol or febuxostat

**Compensation of \$50 each visit
for study-related time and travel**
